Zookeeper WebQuest

Your task: You have been selected to be the zookeeper at a brand new zoo. Your job is to care for three animals of your choosing. You need to design living spaces that match the real life habitat of the animals. You must also make sure the animals are safe and properly fed.

Go to www.animalfactguide.com and select three animals. Then use the following questions to guide you in your zookeeping needs.

Animal #1: _____

What does the animal's natural habitat include?

What does this animal eat?

What are the animal's predators?

Animal #2: _____

What does the animal's natural habitat include?

What does this animal eat?

What are the animal's predators?

Animal #3: _____

What does the animal's natural habitat include?

What does this animal eat?

What are the animal's predators?
